PROFESSIONAL SUMMARY

Software Engineer Intern with hands-on experience in building scalable full-stack web applications using React, Node.js, MongoDB, and REST APIs. Strong foundation in Java, OOP, and Data Structures, with experience in authentication, role-based access, and cloud-based deployments.

TECHNICAL SKILLS

Languages: Java, JavaScript, C++ | **Frontend:** React.js, HTML, CSS | **Databases:** MongoDB, MySQL
Backend: Node.js, Express.js, Spring Boot | **Tools & Version Control:** Git, GitHub, Postman, VS Code

PROJECTS

ExplorX

SaaS-Based Hotel Booking Website

- Designed and developed a SaaS-style MERN holiday booking platform, deployed on Vercel with continuous feature enhancements.
- Built secure REST APIs for user authentication, bookings, and media handling.
- Integrated Cloudinary for image storage, improving media load performance.

Uber Clone

Real-Time Ride Booking Web Application

- Developing a full-stack ride booking system with separate rider and driver roles using role-based authentication and authorization.
- Implemented REST APIs for ride creation, status tracking, and access control.
- Mobile-first UI; integrating Google Maps API for real-time location, distance, and routing services.

Virtual Assistant

AI-Powered Personal Assistant

- Developed a web-based assistant supporting voice commands and task automation.
- Implemented JWT-based authentication and secure API communication.

EDUCATION

2024 – 2027

Bachelor of Engineering – Computer Science

Chitkara University, Punjab

2023

Senior Secondary (Class – XII)

Government Model Senior Secondary School, Chandigarh

CERTIFICATIONS

Programming & Security: C Programming (Duke Univ.), Cyber Security (SWAYAM)

Cloud & DevOps: DevOps & Scrum (IBM), Cloud Foundations (IBM/Duke)
